Please read this manual before using the product, and keep the manual for reference.

If you have any questions about this product or face any issues when using it, feel free to contact us directly for answers and assistance. Keep the cover dry when not in use to avoid mildew.

Installation steps

Figure 1

To install an above ground pool winter cover, you would first want to make sure all of your other winterizing has been completed. This would include cleaning the pool, lowering the water level below the return fitting and skimmer, and adding pool winterizing chemicals. If you are using an air pillow under the winter cover, inflate and place it in the center of the pool right before you put the cover on.

Figure 2

Now spread the pool cover on the pool, It will be easier with two people working together. The pool cover will be slightly larger than the pool itself, adjust the cover as needed to evenly cover the entire surface of the pool. If you are using a pool air cushion (sold separately), be sure to install it in the center of the pool before covering the pool with the pool cover.

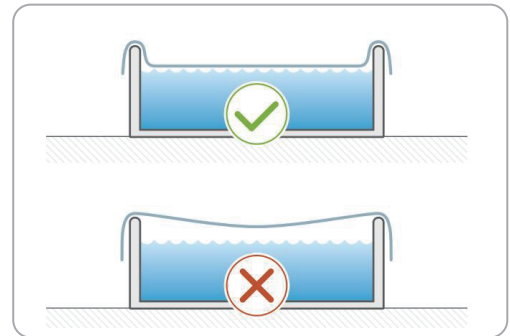

Figure 3

Attach one end of the webbing to the buckle on the diamond-shaped piece, and then thread the other end through the reflective strip around the pool cover and attach it to the buckle on another diamond-shaped fastener. Repeat the same steps for the other webbing. Finally, tighten the webbing.

Figure 4

The pool cover has evenly distributed webbing loops on the bottom side, which can be used to

WARNING: AVOID DROWNING RISK

- Stay off the cover — it will not support weight.
- Keep children away. Children or objects cannot be seen under cover.
- Remove the cover(s) completely before anyone enters the pool.
- Remove standing water — a child can drown on top of the cover.
- Non — secured or improperly secured covers are a hazard.
- There is no substitute for adult supervision around a swimming pool.
- Failure to follow all instructions may result in injury or drowning.

STORAGE

- Clean and dry the pool cover and the weight tubes before folding them up for storage.
- Store in a dry, cool place.
- Do not expose the pool cover to sharp objects that can cause tears or other damage to it.
- Keep away from heat sources and flammable substances.

MAINTENANCE

- Keep the chemical balance of the water in your swimming pool healthy according to standard pool maintenance recommendations (proper pH, lime hardness, total alkalinity, and free chlorine levels).
- If ice forms on any part of the cover, do not attempt to remove the ice. Wait for the ice to melt before removing the pool cover.
- When installed, the cover should not be exposed to heat sources, open fire, or flammable substances.
- Clean the cover and the weight tubes with non-aggressive cleaners and fresh water.
- Using a brush if necessary. Let the cover and the weight tubes dry before folding them up.

We are committed to providing the best user experience and carefully inspecting each product before delivery. If you encounter any quality issues, please feel free to contact us — we will provide a satisfactory solution and use your feedback to improve our covers. Thank you to every customer for your visit and support.
